02 — POSITIONING

We help blue-collar businesses become the company people trust before they ever call.

Our position is not "another video production company." We are the strategic media and marketing partner for companies whose reputation, craftsmanship, people, and proof deserve to be seen. The camera is a tool. Trust is the product.

Build Trust. Stand Out. Win More Work.

01

BUILD TRUST

Show the people, craftsmanship, values, process, proof, and customer experience behind the company.

02

STAND OUT

Create a recognizable premium brand and consistent media presence that separates the client from look-alike competitors.

03

WIN MORE WORK

Turn trust and differentiation into stronger leads, better-fit customers, recruiting advantages, referrals, and long-term brand equity.

04 — THE TRUST FRAMEWORK™

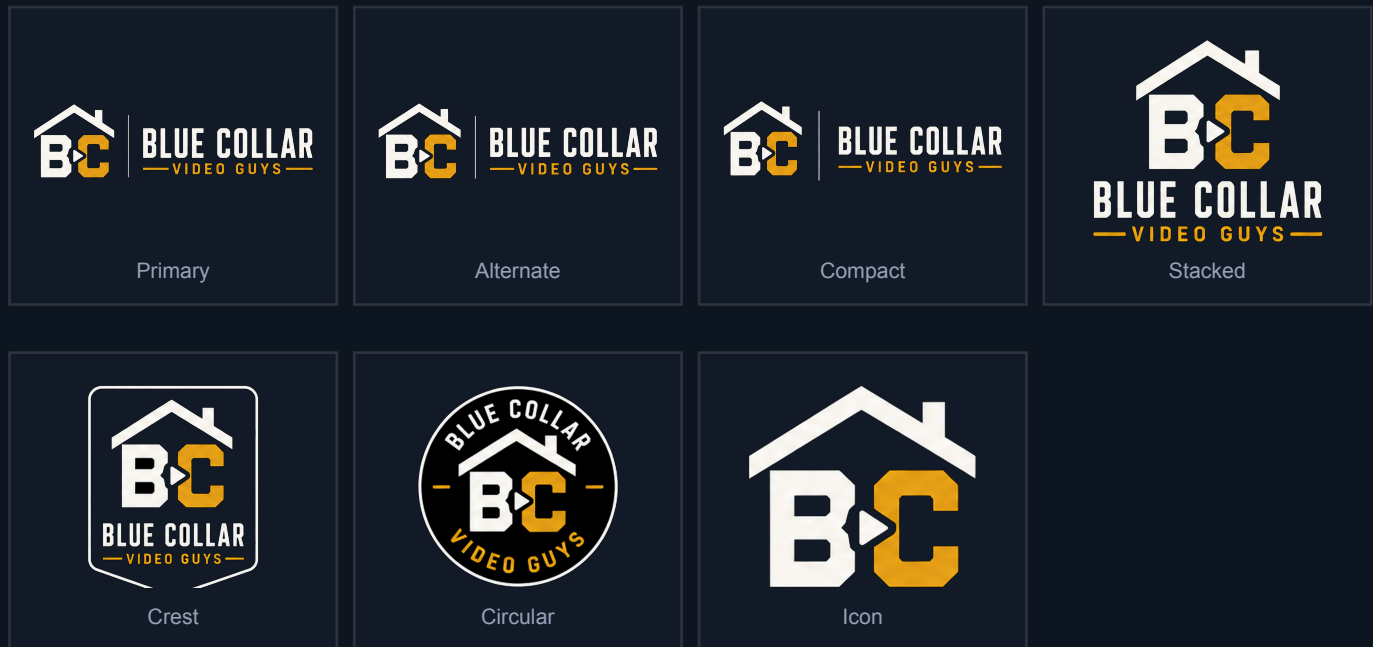

BUILD TRUST → **STAND OUT** → **WIN MORE WORK**

The Trust Framework™ is the core philosophy that powers the Blue Collar Blueprint™. Every video, testimonial, website, social post, photograph, campaign, and sales asset should help move the client through these three outcomes.

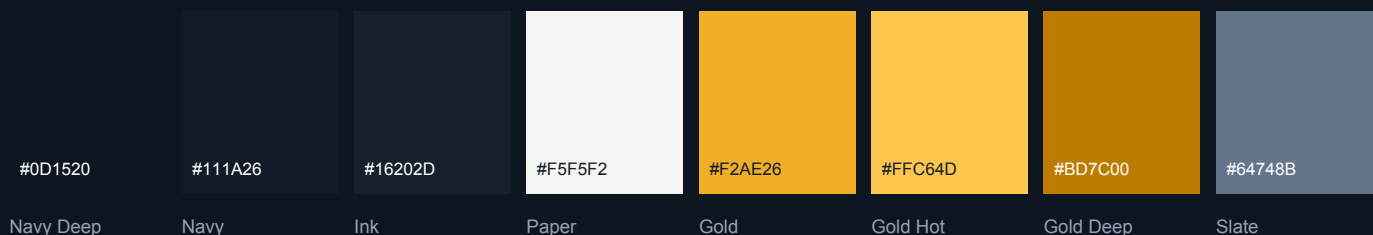

05 — LOGO SYSTEM

Lockups that carry the crew

The BC monogram, play symbol, roof form, proportions, and solid-border treatment stay consistent. Do not stretch, recolor, rearrange, or recreate the monogram as typed text.

Does this help the client Build Trust, Stand Out, or Win More Work?

If it does, it belongs in the Blue Collar system. If it only looks cool but does not strengthen trust, differentiation, or business outcomes, it is not enough.
